Cheats, Modifications & Secrets

As per usual, Genki always includes a good slew of secrets within their games, and this one is no exception! While most of them are already pretty well known by this point, it is always good to be reminded on how to access them.

Secrets

Unlock engine swaps early

Steps to activate the secret:

1. Pick any car
2. Drive said vehicle for **2000km/1242 miles** during Quest Mode (that number should be reflected in the kilometer counter of the vehicle)
3. Go to Garage

Notes:

This only unlocks engine swaps **for the car you have driven** said amount of distance, the rest of the vehicles will still have the engine swaps locked until you repeat the entire process. Remember that any playthrough done in NG+ will let engine swaps be done as long as you have the cash to pay for them.
